5	R21-6540	21-6540	Grooved Repairable Steel Roller - 2in	1	182.95	
<i>Tech Note: Constructed with greasable "water-pump" style bearings, this roller can be repaired by unscrewing the ends and replacing the series of washers and spacers.:</i>						
<i>Detail Description: Engineered for longevity and serviceability, this repairable grooved roller combines precision performance with easy maintenance. Constructed with greasable "water-pump" style bearings, it provides smooth, dependable rotation and simple lubrication access for extended bearing life. Unlike traditional sealed rollers, this model is designed to be fully repairable—the ends can be unscrewed to replace the internal series of washers and spacers, restoring like-new operation without replacing the entire roller.

The grooved design delivers consistent surface contact while minimizing drag and debris buildup, making it ideal for professional turf maintenance and landscaping applications. Built for durability, efficiency, and long-term value, this roller offers both high performance and practical serviceability in one reliable assembly.:</i>
